John Bunyan's Immortal Allegory

PROBABLY no book, save the Bible, has been so extensively read as Bunyan's immortal allegory

The Pilgrim's Progress.

It has been translated into nearly all the different languages of Christendom, and been perused with delight and holy fervor by all nations. Art has lent her attractions in nearly all the forms of Illustration, from the rough *Wood Cut* to the exquisite *Steel Engraving.* But to the middle of the nineteenth century and to an American clergyman, are we indebted for the *only pictorial conception* of this immortal work.

The novel and sublime idea of embodying the *entire story,* and transferring the same to a *single picture* showing the wanderings of Christian from the City of Destruction to the Celestial City, presenting at one view to the eye the varied scenes through which he passed, originated with Rev DANIEL WIGHT, of Massachusetts. His truly original and beautiful conception was reduced to a most elegant design by HAMMATT BILLINGS, and from this design JOSEPH ANDREWS the distinguished historical engraver has produced, after four years of labor, a picture which will take rank among the most superb and elaborate productions of human genius, taste and skill.

The picture is now ready, and will be offered at the Bookstore of the Publishers, and by Agents duly appointed by the Publishers.

The Best Pills in the World.

HARDY'S FAMILY VEGETABLE CATHARTIC PILLS are the best that can be found in any country for Jaundice, and all bilious troubles, Dyspepsia, Colds, Rheumatism, and every complaint in which the stomach or bowels need evacuation or regulating. Yankees have boasted their unequalled skill and talent for every thing that the human head can devise or hands execute, why, then, turn with admiring and confiding eyes towards every new medicine with a foreign name? Yankees can, and do, beat all creation in every thing they attempt. Then discard your Mustang, Kangaroo, Ichneuman, Hyena and all other such heathenish medicines, and call at Hardy's No 3 Harlow's Block, where you will find not only the best Pills, but the best Medicines in existence for all the ills that flesh is heir to (except lean pockets) and the best Horse and Ox Medicines besides. McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unequalled safeguard of property—proof against the devouring element of fire, as well as the most skilful burglar. To MERCHANTS, JEWELLERS, and BANK DIRECTORS we would only say, examine them and the proofs and you will be convinced of their superiority over all other manufacture.

Our business is done in a plain, straightforward way without resorting to boasting or false talk.

Below is one of the many testimonials we are daily receiving from all parts of the country and which speaks for itself. Messrs Pond & Hitchcock's Oil Store was situated directly under the Pearl st House and was totally consumed in that great fire of August 23.

NEW YORK, Aug 25 1853.

Messrs Wm McFarland & Co

Gents—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you, preserved our books and papers at the disastrous fire of the Pearl st House last evening, in the most perfect manner. Although it was covered throughout the fire with burning Rosin, and there is in directly under it a broken gas pipe, in the most intense heat, it remained true to its name and its contents when taken out were not even scorched, and hardly bore the smell of fire. To any one who is in want of a superior Safe, a perfect safeguard against fire we cheerfully recommend your manufacture, having had a personal experience of their excellence. Yours truly

Thrice Weekly Journal FOR 1854.

DURING the approaching session of the Legislature the undersigned will continue the publication of the Thrice-Weekly Journal, being Volume X of the same.

While the paper will be principally devoted to furnishing a correct Report of Debates and legislative business, generally, a fair share of attention will be given to Miscellaneous and News matter.

The peculiar elements constituting the Legislature upon which devolves the organization of the State government and the election of an U S Senator besides action upon many other matters of importance will go to render the session one of unusual interest.

The Thrice Weekly Journal will be published on MONDAY, WEDNESDAY and FRIDAY mornings, alternating with the Thrice-Weekly Age, and thus furnishing a daily Legislative paper. The price will be ONE DOLLAR FOR THE SESSION, payable in advance.

☞It is desirable that the names of subscribers, accompanied with the money, should be sent in a week at least before the session commences.

MONDAY, DEC. 19 1853

☞ The Southern Press, almost unanimously, we see, chime in with the papers North, East and West, in complaining of the favoritism displayed by President Pierce, in allowing his agents to distribute advance copies of his message to certain presses, to the prejudice of other journals equally entitled to them. The New Orleans Picayune there, with the New York Tribune and the Times, and Boston Post, seem to have been the favored party, and as a natural consequence, all the other papers have taken it to task, as the Delta expresses it, "for the gross and scandalous breach of faith, and not enterprise," by which the message was first obtained by the Picayune. The arrangements for conveying the message out West, met with almost universal censure from the Press.

☞ Accounts from Washington represent that the President has lost control in the party sense in the U. S Senate and may expect opposition to some of his measures in that body. He has lost control, in the party sense, of a large portion of his own party, among the people, and those most active in effecting his election. He has lost control, in the party sense of a portion of the House of Representatives, and is likely to lose more. If he goes on during his administration in losing at the same rate he has since last March, there will be none so poor as to do him reverence.

HOT CORN: LIFE SCENES IN NEW YORK ILLUSTRATED. 1 vol 8vo, 408 pps Handsomely Illustrated. Price $1,25 De Witt & Davenport, New York

This is a volume of much beauty and of enchaining interest, and having a marked moral aim. Its author, Solon Robinson, one of the editors of the New Yprk Tribune, in his walks among the lowly in that great city of contrasts, of luxury and squalidness, of wealth and poverty, with an eye keen for observation, and a heart tender with sympathy, and a talent for daguerreotyping not only the outward condition of the subjects he noticed, but the interior states of their mind and heart, has, in this volume brought the whole out to their life

The reformatory and suggestive power of the pen is forcibly illustrated in this masterly production of Mr. Robinson, and while he most vividly gives word painted pictures of what he saw he foreshadows, most delicately, yet distinctly the state of his own loving heart and benevolent intentions. The picture though starting and given with a force and pathos which command attention, are not given for themselves merely, but as way marks in the path of the heart, and to those humane sympathies, and those benevolent purposes which distinguish the good man And these life scenes of physical and moral destitution not only open the life of the suffering and of the writer, but so arouse the sympathies and quicken the moral forces of the reader as to make him wish that he too in some form may become the agent of good to others, and learn, at least, to speak kindly to the wretched and crushed and broken.

It is good to read this book, good to the rich and the poor, the lofty and the lowly, those able to aid those in distress, and to those needing that aid. We rejoice that the popular literature of our times turns its attention, in part, at least, to the moral and social aspects of real life, to suffering and duties, and this too with all the beautiful flowers and fragrance of the graces of literature.

We desire that this volume may be circulated by tens and hundreds of thousands, and read everywhere, in hall and cottage—in cities and on islands—in fishing boats and lumbermen's camps.

This work may be found at David Bugbee's Bookstore, on Kenduskeag Bridge.

☞ In Paris, recently, several police agents in plain clothes, being in an eating house outside the barriers, heard two men at a table whispering mysteriously, one of whom asked "Is he dead?" "Yes," the other answered, "but not without some trouble, he struggled hard and I was afraid of being surprised.' "The other must be killed or we shall certainly be discovered." The policemen thought themselves on the track of some awful murder and immediately took the unconscious men into custody. On finding themselves arrested and fearful of the consequences they confessed themselves to be members of a gang, whose occupation was to steal dogs, which they killed and sold to the low eating house keepers, outside the walls to make up for a deficiency they might have in their supply of hares and rabbits. Snails and frogs the French can eat, but dogs are a step beyond. This is, however, no common food, though certainly unknown to the eaters of sausages and other nuts and ons.

☞ The annual meeting of the Penobscot Agricultural Society for the choice of officers and the transaction of other business will take place at the City Hall, on Monday the second day of January next.

There is much important business to be transacted at this meeting and it is desirable there should be a general attendance We trust that the people generally, in the county will attend at the meeting and become interested in the great subject to which this society is devoted.

☞ The Port and Advertiser reports that at the Supreme Court in session in that city, in one case, State vs. Neal, for assault with intent to kill, the jury brought in a verdict of guilty The punishment fixed by law is not less than one year's imprisonment.

A motion for a new trial was filed based upon the ground that the verdict was against the weight of evidence.

☞ We would refer the reader to the notice in another column, of Messrs. Shaw & Merrill, who have added to their usual large stock of fashionable and substantial furniture and house furnishing matters. This is one of the oldest establishments in the city, yet always fresh in all the novelties of their trade.

OBITUARY.

Died at Lynn, Mass., the 13th instant, Mrs Sarah Johnston, wife of Hon. Edward Kent, late United States Consul at Rio de Janeiro, and daughter of the late Nathaniel Johnston, of Hillsborough, N. H.

The subject of the above notice was so much as dearer to a large circle of relatives and friends in this city, where the family resided many years previous to their departure for Rio, something more than a passing notice seems to be due to her memory.

Mrs. Kent will be remembered by those with whom she was associated in the Church, (Rev. Mr. Little's) for her gentle and unobtrusive, yet decided Christian walk and character. By her neighbors and friends generally, as a lady of highly polished and refined deportment.—She, with our highly esteemed friend and fellow townsman, Governor Kent, have been called to drink deeply of the cup of sorrow since they left this city four years since, having buried at Rio, an only son of about fourteen years of age, and an accomplished daughter who had just entered upon the stage of active life, with the most flattering prospects of earthly happiness. Those heavy blows seemed almost overpowering to the parents, but, we believe, were ordered in wisdom by that inscrutable "Divinity that shapes our ends," and were preparative of the further developments of the same merciful hand, in the sickness and death of the mother

Mrs. Kent was a severe sufferer for many months before her demise, from one of the most painful and trying diseases that flesh is heir to, but was supported by the hopes and consolations of the gospel, which she had embraced in early life and which grew brighter and stronger until the last moment, when with unshaken confidence in her Redeemer she passed quietly from the pains and sorrows of earth to the hoped for bliss of a re-union with loved ones who had gone before to that "better country"

The numerous friends of Gov Kent, deeply sympathise with him in this most overwhelming affliction, and would gladly offer any solace that earth can afford to alleviate his sufferings. May he find better consolations, however in this hour of his calamity, by a holy resignation to the will of Him who *"tempers the wind to the shorn lamb."*

THE CHRISTIAN WORLD UNMASKED. By John Berbridge, A M, Vicar of Everton, Bedfordshire. With a Life of the Author, by the Rev Thomas Guthrie, D D, Minister of Free-street John's, Edinburgh. Boston:—Gould & Lincoln 1853.

From a recent Edinburgh edition, Messrs. Gould & Lincoln have given to the American public a neat volume, containing the Memoir of one of the remarkable ministers of England, by whose bold and earnest labors the cause of evangelical religion was sustained in the middle of the last century, and a work from his pen of great force and closeness, expressed in an affectionately, quaint, conversational and eminently personal style.

☞ The New York Times thus speaks of the filibustering in California

"The parties concerned in it, we are told, have put themselves effectually beyond the protection of the American Government, and if they return within the limits of the United States, unless the neutrality law has become a *farce*, they must inevitably meet its severe penalties If they remain where they are, they are pretty certain to be eventually dogged by the forces which the Mexican Government will send for their expulsion There does not seem to be the slightest pretence that the inhabitants of Lower California took any part in these transactions, or have any desire for independence The whole performance is a simple act of lawless invasion,—one which cannot be sustained upon any principle, and for which no man, cherishing the slightest regard for good faith, can offer the least apology"

INTERNATIONAL COPYRIGHT The Washington correspondent of the New York Times has the following

"Mr Everett's copyright treaty, now pending in the Senate, is some ten months old, and will expire at the end of its twelfth month, unless acted upon by the Senate prior to that time It may be allowed to die a natural death in that way, as there is a very general disposition now, even among the friends of international copyright, to submit the measure to the Legislative branch of the Government. Even Mr Crayton, well known as an advocate of the copyright, refused, when Secretary of State, to negotiate such a treaty

I understand that Mr Marcy is negotiating an international copyright treaty with the Empire of France also."

Health and Disease.

To the Editor of the Whig and Courier

"His habitation within is dark, vast and full of gore, and bloody meats."

Virgil has here, in describing the cavern of the Cyclop, finely pictured one of the indispensible attendants on animal or flesh diet—a slaughter-house or meat-market.

While at this point we will compare in *one* respect the vegetable with the flesh diet. Go into the garden of the vegetable eater. The air is sweet, laden with the perfume of fruits and flowers, the eye is gratified with beholding the rich and varied variety of earth's productions, the fruits are plucked from the drooping stem and dissolve in richness on the tongue. Yes, all conspire to excite emotions of beauty and pleasure in the heart of the beholder—And he studies nature's works not alone, as isolated, but as connected with a creator. He is made wiser, happier, and better.

Let us look at the other picture. You see there an old building in a lone dreary place—As you approach it you are greeted with an odor more foul than the breath of the devastating pestilence The whole atmosphere about you seems contaminated with the sickening stench. You enter, and behold—what? one brute murdering another No you see a man—a *humane man*—with a huge axe in his hands, a long, glittering knife clenched in his teeth. You see the poor, pat ent ox, that has given all his labors to supply his wants, that has been faithful in many things, about to yield up his life for the one crime of being too old for service! See him, as he comprehends, apparently, the coming execution, he exerts every muscle and fiber, his strained eyeballs roll wildly, he utters a fearful groan as the cruel axe strikes him down. A moment more and the warm blood gushes out and courses down the gutters. But we will not paint the whole scene it is too horrible Now do such scenes as these excite within the heart of man any kindly feelings do they tend to make him kind, gentle, to inspire him with truth and love?—Does it destroy, in any degree, the principle of selfishness?

But I am digressing I wish to state a few facts in relation to the immediate evil effects which animal food has upon the health of man

Firstly—it causes an abnormal thirst which too often seeks gratification from sources differing far from the "crystal well Secondly—animal flesh actually inflames the sensitive coats of the digestive organs, thus disarranging the great laboratory on whose integrity depends the healthy performance of all nature's functions. Whatever produces disorder here destroys the whole harmony of health and life

In our next we will give the opinion of modern physiologists on the subject

A NEW PASS IN THE COAST RANGE.—One of the exploring parties detailed from the Pacific Rail road Surveying Expedition, under Captain Williamson, arrived in town on Monday This party is under the direction of Mr Smith, and among its members are Dr Herman, surgeon and naturalist, W P Blake, geologist, and C Koppel, artist They are engaged in examining the various passes between the Tejon and the Cajon, and have succeeded in opening one, which they pronounce far more feasible for passage than any yet discovered in this vicinity The pass was first discovered by Captain Williamson, and leads from the Desert directly through the mountains to the San Francisco rancho The party entered the pass by a gentle ascent, with a wagon They found it in some places unobstructed, in others filled with a dense growth of timber and underbrush, through which they were obliged to cut their way They were five days cutting a road through, and arrived in this city by way of San Fernando. On Wednesday the party left this city for their depot camp on the Mohave, by way of San Bernardino and the Cajon

The geology of the region explored is said to be of an interesting character, and exhibits many indications of the grandual retrogression of the sea from the mountains Numerous sharks' teeth have been picked up together with sea shells, and beds of rounded water worn pebbles exist in many places The report of the scientific corps will embody a vast amount of reliable information touching they hitherto unknown region

An Old Rogue caught.

Some time last week, a chap named Oliver Chute, alias Waterhouse, alias something else, who had resided in the upper part of this town for about a year, but who moved off a month or two since, was arrested in Shelburne, New Hampshire, by officers Patterson and Ellis, of this city, on various charges of arceny and burglary, and brought back on a requisition from Governor Crosby We understand that officer Patterson some time ago received letters from Massachusetts describing a person who had committed a burglary in that State, and inquiring if he had been seen in these regions and from certain information obtained from correspondence, Mr P became convinced that not only was Chute the man wanted in Massachusetts but that he was also the man for whom a reward had been offered as guilty of stealing a horse and wagon from Mr Cary Ellis, succeeded in bagging game, together with the horse and wagon and sundry other articles of stolen property, including two to three gold and silver watches.—Kenebec Journal

AGRICULTURE IN THE RED HILLS.—Colonel Benoist of the Forty Mile House, El Dorado Co, has informed The Sacramento Journal that the experiment made this season in the cultivation of the red land of the foot hills of the Sierra has been very successful He has, without irrigation, raised 30 acres of barley and oats, that averaged a yield of 68 bushels to the acre The red lands also appear to be peculiarly adapted to the growing of beets and turnips, of which he has heavy crops The potatoes planted on this soil do not thrive as well as other descriptions of roots Those raised this season are small size and of a poor quality The successful nature of the numerous experiments that have been made this season conclusively establish the fact that for certain crops the foot hills of the Sierra will hereafter be profitably cultivated.

DEBT OF TAXES A resolution, the New Orleans Picayune states, has been introduced into the Texas Legislature, declaring what is known as the scaling system—as the fixed policy of the State A bill has also been introduced fixing the 1st of July 1855, as the period before which the holders of the public debt, who have been adjudged to have a lien on the five million fund, reserved by the United States, as creditors to whom the duties on imports were pledged, shall file the releases required by the proviso of the boundry act, or their claims shall be annulled and cancelled. Judging by the tone of the official paper the Austin Gazette, these compulsory measures to bring the creditors to a final settlement speedily are likely to pass both houses

"Is there anything for me to do?"

With what force should this question come home to every one Without activity, life is but a dream—a suffering one To do good in his day and generation should be the highest aim of man—it would be worthy of his being We have often contrasted the glory of the ever active mind with the dark insipidity of the puerile and dreamy intellect, wishing in our heart that a sense of true human greatness could be aroused in every one, believing that the smallest of the race has a mighty work before him, if he could but realize it, which must tell both upon the present and the future

Upon the present generation rests the responsibility of shaping the destiny of the next, by giving its youthful impulses a high and noble direction, and to do this, self culture must be a universal individual one The farmer and mechanic ought to feel the deepest interest in this matter There is no good reason why they should not be equally as intelligent as they are useful, and if they will make the effort, manfully and perseveringly, they cannot fail of attaining to that high position whence they may minister to the mental, as well as the physical wants of the world Let them lay aside the *isms* and *scisms* which are only arousing mens' *evil* passions, cultivate a more intimate acquaintance with science art, history and literature, being careful to distinguish between the true and the false, and they will soon find that enviable attainment is far from being among the impossibilities

We are anxious to see an advance step taken among the masses of our farmers and as we contemplate the disordered political condition of our State, action among them seems to be imperative In this country the farmer ought to have an immense influence in arresting moral corruption, (he is properly the rectifier of political errors) hence, he should be educated, intelligent and prompt It will not do to argue a want of time system will surmount all obstacles and enable almost every one to avail himself of the very forcible suggestions, we have frequently read with satisfaction in the *Country Gentleman* to appropriate the long winter evenings for the development of the higher faculties Forget party animosities social jealousies and all other hindrances to such plans as will give a free and healthy action to the mind, and suffer the social and home circles to become radiant with the results of thought and research, that we may look over your broad plains and long to enjoy the rich mental feasts of the Farmer's Club Room, or sigh for the social luxuries of their firesides

Mr H G Farrell—Dear Sir Actuated by a sense of gratefulness I submit the following as an instance of the utility of your great medicine My child, three years old, was suddenly attacked with a terrible disease, which in less than six hours prostrated it to total helplessness The limbs became so rigid that not a joint could be bent, the flesh turned black and cold and entirely deprived of feeling the eyes fixed, partially closed, and altogether blind, following this was deafness in all sounds the spine became contracted, and so curved that when lying on its back the head and heels only touched Indeed the child presented every appearance of being dead Immediately on the attack the family physician was called in, and for three weeks he labored to restore it to feeling, but all in vain although it was blistered a dozen times, and various rubefacient liniments applied. A consultation of physicians was then held, but to no purpose, the case was then brought before the Medical Society, but nothing could be suggested which had not already been done, and the doctor then told me he could do nothing more We then commenced applying your Liniment freely over the entire length of the spine, and you may imagine a parent's joy, when, after a few applications, returning animation was apparent, and it rapidly recovered with the exception of the sight, which did not been so perfect for near a month The child is now healthy and robust as can be Five other cases of the same kind occurred previously in my neighborhood of which died, which there is no doubt if your Lainme been used they would have recovered

LOOK OUT FOR COUNTERFEITS

The public are cautioned against another counterfeit, which has lately made its appearance, called W B Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H G Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H G before Farrell's, thus—H G FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail Ranger Also by E F Mussell, Oldtown French & Hamilton, Dexter. Geo. Parcher, Ellsworth. P O Flaherty, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good references as to character, responsibility, &c

BLOODY RIOT IN ILLINOIS

CHICAGO December 17.

A bloody riot took place yesterday at Lasalle among the laborers on the Illinois Central Railroad, owing to a reduction of wages It began by an altercation between Albert Story, a Contractor, and a party of Irishmen during which one of the latter was shot dead Shortly afterwards Story's office was attacked and pillaged and Story himself, who had fled to a barn, brutally murdered His body being shockingly mutilated Mrs Story was also fired upon, but escaped injury.

It is reported that Mr. Dunn, Story's foreman on the other side of the River, has shot nine laborers

The Sheriff of Lasalle county was present and succeeded in arresting thirty of the rioters, after shooting one dead and wounding two others. The ringleader has escaped

ARRIVAL OF THE SARAH SANDS AT PORTLAND

PORTLAND, December 17

The Sarah Sands, the first regular steamship from Europe for Boston, arrived this (Saturday) morning, at a quarter past 3 o'clock Her news has been anticipated by previous arrivals

We have received an extra of the "State of Maine" from which we learn that the Sarah Sands under the command of Capt Risley, a Portland boy, made the passage in 18 days and 10 hours, bringing 205 passengers, with a good freight

Capt Risley made Portland light when within five miles and run in without a Pilot

The news has been anticipated by the mail boats and by telegraph

The Barrings and other houses have been shipping large quantities of gold to Russia and money circles in England evidently anticipate an early settlement between Turkey and Russia.

Fashionable Eating House!

Knowles & Johnson,
No. 5 Bowman's Block, East End of Kenduskeag Bridge, Bangor.

WE have opened a beautiful establishment for the sale of

Fruit, Confectionery & Pastry,

and have several apartments and well finished rooms fitted up with Marble Tables for the purpose of furnishing to gentlemen and also to ladies and gentlemen, a nice lit bit in the shape of a Luncheon or a nice and comfortable Meal, at any hour of the day and at a moment's notice

The entrance to the Ladies' Saloon is by the stairway entrance to the Mercantile Association Reading Room

This is a fast age, and gentlemen visiting the city with their wives do not like a long, tedious waiting for a set and formal dinner under the ponderous machinery of a hotel and our plan is to give them an elegant meal in our Saloon without the loss of time and at about half the hotel price A gentleman in a hurry a gentleman belated or obstructed by a stormy day can pop in, get a nice meal without trouble, and with little loss of time

We have made the beginning in one of the most convenient and popular arrangements suited to the times and we intend to keep up its respectability and usefulness

OYSTERS served in all the various styles

Pies,
Pastry,
Fruits,
Preserves,
Nuts,
Apples,
Oranges,
Hot Tea,

CEMENT.
BROKEN China Glass Earthen Ware, and Fancy Articles of every description repaired and mended strong as before broken without injuring its appearance

This Cement which has been proved to be of great strength, will be found particularly useful in every family, the simple manner of its application is alone a recommendation The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it The variety of purposes for which it may be used are so numerous that it would be difficult to recite them Its success in mending Glass China &c, in extraordinary no ordinary degree of heat affecting it, and as the joints are scarcely perceptible articles of this kind may be made useful for years, which otherwise would have been cast away

VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

This article, which has made so many wonderful cures, was discovered by Dr. Jesse Hampton, of Louisville, Ky., now in fine health in the 70th year of his age, and is acknowledged by those who have used it to be the *best* family medicine in use; and is *warranted free from all mineral substances*. By its mild action on the Stomach, Liver and Kidneys, it will cure the diseases of those organs, with all Chronic Complaints, as

Dyspepsia, Cough, Asthma, Bronchial and Lung Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Bowel Complaint, Worms, and Nervous Debility,

with all diseases arising from impure Blood. As a Female Medicine it has no equal. It will change the complexion from a pallid to a blooming one.

SEYMOUR'S GALVANIC

ABDOMINAL SUPPORTER.

THIS apparatus possesses all the mechanical advantages of the Abdominal Supporters now in use, and also some valuable improvements beside the galvanic attachment. It has been tested, approved of, and universally adopted in the practice of all the leading Physicians in New York, Boston, and all other places where introduced, in the treatment of all Nervous diseases which exhibit themselves under so many different heads, and particularly in the cure of Uterine difficulties. The beneficial results which have uniformly attended the use of this instrument are a sufficient guaranty of its utility and general application. The advantages of this over other Supporters are, it cures by its Galvanic action, presents a smooth surface that does not retain heat or impurities which pass from the system, and can be kept pure and healthful.

The attention of the medical profession is respectfully solicited to an examination and test of the instrument. The above Supporters are for sale by GEO. W. EMERSON, Druggist, No 4 Smith's Block, sole agent for Bangor and vicinity.

THE GREATEST
MEDICAL DISCOVERY OF THE AGE!

MR KENNEDY, of Roxbury has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR from the worst Scrofula down to a common Pimple—He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two or three bottles will clear the system of biles

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst case of erysipelas

One to two bottles are warranted to cure all humors in the eyes

Two bottles are warranted to cure running of the ears and blotches among the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin

Two or three bottles warranted to cure the worst case of ringworm

Two or three bottles are warranted to cure the most desperate cases of rheumatism

Three or four bottles are warranted to cure the salt rheum

Five to eight bottles will cure the very worst case of scrofula

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone walls should cure every humor in the system, yet it is now a fixed fact If you have a humor it has to start There are no ifs nor ands, hums nor ha's about it, suiting some cases, but not yours I peddled over a thousand bottles of it in the vicinity of Boston I know the effects of it in every case It has already done some of the greatest cures ever done in Massachusetts I gave it to children a year old, to old people of sixty I have seen poor puny wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to a sick headache, one bottle will always cure it It gives great relief in catarrh and dizziness Some who have taken it have been costive for years and have been regulated by it Where the body is sound it works quite easy but where there is any derangement of the functions of nature it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to

TESTIMONIALS

The following certificate from Dr John C. Warren, of Boston, was given 17 years since but will last forever

Boston Jan 5 1853.

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Beath—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating to the variety of cases which occur I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles

JOHN C WARREN, M D

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia Mr James Frederick Foster as a skilful and competent person in the manufacture and fitting of Trusses We have employed him (some of us over twenty years) and therefore speak from personal knowledge of his ability. His early and long experience in the business and the large number of individuals whom he has relieved in a variety of cases render him, in our opinion equal, if not superior to any manufacturer of the article His father Dea Gideon Foster, of Charlestown, was master of the Post Office in that town for upwards of twenty five years, during which period Mr Foster availed himself of the opportunity, and made application of Trusses to a great variety of cases, with great success, some of which were very complicated and distressing character

It is well known to all who have occasion to wear a Truss that its great excellence consists in its adaption to the body at the same time relieving the patient. Any ordinary mechanic may make a Truss but none but a skilful practitioner can apply it in such a manner as effectually, and oftentimes radically cure the infirmity

Our experience has enabled us that Mr F certainly thoroughly attained this knowledge The certificates of Dr J C Warren, and other eminent surgeons which he has shown to us fully sustain the opinion we here express

Self Acquired Fame!

DR. JOHNSON'S
AMERICAN ANODYNE LINIMENT.
For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world It is entirely vegetable extract perfectly safe to be administered even to the most delicate child and distinguishing and satisfactory ... itself ... upon man or beast ... acquainted with its invaluable medicine we say give it a fair trial and we promise you a radical cure of Coughs Colds Asthma Bronchitis Whooping Cough Influenza, Spitting of Blood, and all Lung Complaints, Chronic Diarrhoea and Dysentery in all of which cases it should be used internally The effect of its external application in cases of Rheumatism, Spinal Diseases Sprains Chapped Hand Bruises Burns, and all descriptions of wounds is magical Persons troubled with Cramp in the Stomach Side or Bowels ... Throat Piles &c by a combined internal and external application of this Anodyne cannot fail of certain and speedy cure The proprietor can produce volumes of testimonials in its favor but prefers to let it carry its own recommendation ... has done for forty years past We ask no man to use it after an unsatisfactory trial In its composition it unites several of the most penetrating and healing properties known to the materia medica ... The success of this article is to be considered the success of medicine for the past twenty years

This is to certify that having been troubled for a number of years with a distressing cough and bleeding at the lungs and receiving no benefit from medical aid in 1848 I was to all appearance in the last stage of consumption My legs swelled so that I was unable to dress or help myself At this time your Liniment was providentially recommended to me and by the use of three or four bottles I was entirely cured, and have since been able to labor every day I have often been subject to severe attacks of bleeding, dysentery, and never found any permanent relief until I took your ... since which I have had no return of the complaint I cheerfully say I think your Anodyne Liniment was the means of saving my life JOHN P ATKINS

Brewer, Sept 23, 1853

Dr Johnson, Dear Sir —In consequence of having a fever sore on my leg the same entirely stiff at the knee, and it was so bad that the best surgeons said it must be amputated—but fortunately I heard of your Anodyne Liniment and by using three bottles my leg was limbered and strengthened and for a number of years I have been able to labor as well as the other ... I attribute ... to the use of your Liniment through the blessing of Providence for the use of my leg and would say to others who now need help in this way try it, and no doubt you will be cured

DR. MORSE'S
Invigorating Cordial,
...A...
Phenomenon in Medicine.

Health Restored & Life Lightened by Dr. Morse's Invigorating Elixir, or Cordial.

For centuries Medical science has been ransacking the vegetable and mineral kingdoms, in search of something that should restore the lost or decaying energies of the nervous and muscular systems, without the drawback of subsequent prostration, which all stimulants, tonics and narcotics had heretofore entailed — *That something has been found.* It is a vegetable production brought from the sterile deserts of Arabia by the celebrated Professor M Morse well known as a distinguished member of the leading scientific ... of the Old world and equally distinguished as a ... and ... traveller The juices of the herb concentrated and combined with other vegetable medical extracts, are now producing results ... unheard of in this or any other country At first the properties attributed to Prof MORSE'S INVIGORATING ELIXIR OR CORDIAL were deemed fictitious The public *could not believe* ... announced by the discoverer But the ... facts attested by witnesses of the highest class and character, are now triumphing over doubts Incredulity is overthrown, by a mass of testimony which is perfectly irresistible

The ELIXIR ... in all cases the deplorable ... or abuse of the various organs which make up the wonderful machine called man ... every delicate function ... with that mysterious compound agency ... *the reproduction of human life* ... feeble muscular frame or deficient vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites as well as the higher mental attributes Its beneficial effects are not confined to ... sex or to any age The feeble girl the ailing wife the listless enervated youth, the over worn man of business, the victim of nervous depression the individual suffering from general debility or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator For those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against that terrible malady There are many perhaps who have so often trifled with their constitutions that they think themselves beyond the reach of medicine Let not even these despair The Elixir deals with disease *as it exists*, without reference to causes and will not only remove the disorder itself but

REBUILD THE BROKEN CONSTITUTION

The derangements of the system leading to nervous diseases and the forms of nervous disease itself are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific A few however may be enumerated, viz neuralgia tic doloreux, headache incipient paralysis, hysteria palpitation of the heart spinal affections muscular debility, tremors flatulence a pricking sensation in the flesh, numbness torpidity of the liver mental depression weakness of the will indisposition to move, faintness after exercise broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs sexual incompetency, melancholy monomania fluor albus sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation and all complaints growing out of a free indulgence of the passions and all barrenness that does not proceed from organic causes beyond the reach of medicine

Whenever the organs to be acted upon are free from malformation or structural diseases it is averred that

MORSE'S INVIGORATING ELIXIR

Will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization ☞Bear in mind that all maladies, wherever they begin, finish with the nervous system and that the paralization of the nerves of motion and sensation is physical death Bear in mind also, that for every kind of nervous disease the Elixir Cordial is the only reliable preparation known

CURE OF NERVOUS DISEASES

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated and shattered nervous system whether broken down by excess weak by nature or impaired by sickness, the unstrung and relaxed organization is at once braced revivified and built up The mental and physical symptoms of nervous disease vanish together under its influence Nor is the effect temporary on the contrary the relief is permanent for the cordial properties of the medicine reach the constitution itself and restore it to its normal condition

LOSS OF MEMORY,

Confusion Giddiness rush of blood to the head melancholy debility hysteria wretchedness thoughts of self destruction fear of insanity hypochondriasis, dyspepsia ... irritability, nervousness, inability to sleep diseases incident to females decay of the propagating functions ... if there is any reliance to be placed on human testimony, absolute ...

A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative in all complaints incident to females mark a new era in the annals of medicine Thousands of stimulants have been invented thousands of invigorants concocted—all purporting to be specifics in the various diseases and derangements to which the delicate formation of woman renders her liable The result has heretofore been uniform These nostrums have indeed imparted a momentary vivacity to the nervous system a transient and delusive vigor to the muscles but this flash of relief has been succeeded by a depression and prostration greater than before, and the end has too often been to utterly paralyze the recuperative power of the nerves and the vital organization, and finally to destroy the unhappy patient

EVERY WOMAN OF SENSE

Who suffers from weakness, derangement nervousness, tremors, pains in the back or any other disorder, whether peculiar to her sex or common to both sexes—to give the Invigorating Cordial a trial

MARRIED PERSONS,

or others will find this Cordial after they have used a bottle or two a thorough regenerator of the system In all directions are to be found the happy parents of healthy offspring who would not have been so but for this extraordinary preparation And it is equally potent for the many diseases for which it is recommended Thousands of young men have been restored by using it, and not in a single instance has it failed to benefit them

PERSONS OF PALE COMPLEXION,

or consumptive habits are restored by the use of a bottle or two to bloom and vigor changing the skin from a pale, yellow, sickly color, to a beautiful florid complexion

TO THE MISGUIDED.

These are some of the sad and melancholy effects produced by early habits of youth viz weakness of the back and limbs pains in the head dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability derangement of the digestive functions, general debility symptoms of consumption, &c

Mentally, the fearful effects on the mind are much to be dreaded Loss of memory confusion of ideas depression of spirits evil forebodings aversion to society, self distrust, love of solitude, timidity, &c, are some of the evils produced All thus afflicted

BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with your own

PARENTS AND GUARDIANS

are often misled with respect to the causes and sources of diseases in their sons and wards. How often do they ascribe to other causes of wasting of the frame idiocy, madness palpitation of the heart, indigestion derangement of the nervous system cough and symptoms indicating consumption when the truth is that they have been indulging in a pernicious, though alluring practice, destructive both to mind and body

CAUTION.

DR MORSE'S INVIGORATING CORDIAL has been counterfeited by some unprincipled persons.

In future all the genuine Cordial will have the proprietor's fac simile pasted over the cork of each bottle, and the following words blown in the glass —

FOR ALL THE PURPOSES OF A
FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation This has been prepared to meet that demand and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections but all the advantages of every other This has been attempted here, and with what success we would respectfully submit to the public decision It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels This is not Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels Being purely vegetable, no harm can arise from their use in any quantity but it is better that any medicine should be taken judiciously Minute directions for their use in the several diseases to which they are applicable are given on the box Among the complaints which have been speedily cured by them we may mention Liver Complaint in its various forms of Jaundice, Indigestion Languor and Loss of Appetite Listlessness Irritability Bilious Headache, Bilious Fever, Fever and Ague Pain in the Side and Loins, for, in truth, all these are but the consequence of diseased action in the liver As an aperient they afford prompt and sure relief in Costiveness, Piles Colic, Dysentery Humors Scrofula and Scurvy Colds with soreness of the body, Ulcers and impurity of the blood in short, any and every case where a purgative is required

They have also produced some singularly successful cures in Rheumatism Gout Dropsy, Gravel, Erysipelas, Palpitation of the Heart Pains in the Back, Stomach and Side They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor They purify the blood and, by their stimulant action on the circulatory system renovate the strength of the body and restore the wasted or diseased energies of the whole organism Hence an occasional dose is advantageous even though no serious derangement exists but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength when taken to excess The thousand cases in which a physic is required can not be enumerated here but they suggest themselves to the reason of everybody, and it is confidently believed this pill will answer a better purpose than any which has hitherto been available to mankind When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine
